**Tools** VS-Code, X-Code, AndroidStudio, Github, Figma, Jira, Trello, Agile-Scrum

**Utilities** JWT, OAuth, REST API, Appwrite, Webpack, NPM, Yarn, Redux-Toolkit, RTK Query, Axios

## Experience

**Lead Frontend Developer (Web/Mobile) - Nutrifactor**

May 2022 – June 2024

- Led frontend development using React.js and contributed to Angular-based internal tools.
- Boosted user engagement by 25% through performance optimization and smart caching with Redux Toolkit.
- Reduced app load time by 30% via efficient component optimization and lazy loading.

- Built scalable, responsive UIs with Tailwind CSS, SASS, and Angular Material for specific internal modules.
- Collaborated closely with backend and design teams to deliver features faster (15% increase in release speed).

### Senior Frontend Developer - Ndure

Oct 2020 – March 2022

- Migrated multiple legacy modules from jQuery/VanillaJS to Angular and React frameworks.
- Developed Angular components for admin dashboards and reporting systems.
- Improved frontend performance by 40% with dynamic imports, lazy loading, code-splitting and state management.
- Reduced frontend bug reports by 25% through strong API integration practices.

## Education

**B.Sc. in Computer Science** – The University of Faisalabad

July 2021

## Certifications

- Agile-Scrum & Kanban – HRDC (2024)
- React Basic to advanced – Codecademy (2023)
- React Native Advanced – Code with Antonio (2024)
- Authentication with Prisma, Mongo, Appwrite – (2024)

## Projects

### Web - React, Next, Shopify

- **Quantity Limiter App:** Order/Cart quantity limiter app for online stores to improve inventory control. [Store-link](#)
- **Push Notifications App:** Offers & reminders notification app to improve customer engagement and retention. Frontend with React, backend panel with Angular. [Store-link](#)
- **Customer Management Panel:** Management dashboard integrating third-party systems (Yeastar) to allow efficient management of calls and customer data.

### Mobile - React Native

- **Affiliate Mobile App (Available on [Google Play Store](#)):** Affiliate marketing app with real-time analytics, notifications, and coupon management using React Native, Redux and Firebase.
- **E-commerce Mobile App:** Cross-platform shopping app with Stripe integration, including payment gateway integration and responsive and custom UI.
- **SmoothRide Mobile App:** Car oil e-commerce app with product catalog, secure payment processing, and order tracking, built using React Native and Redux Toolkit.
